“ON-SITE AND TEST HOUSE INSPECTIONS”

Expertise

• CIVA modelling software
• Development of calibration blocks
• Development of inspection procedures
• Commercial inspections
• Qualified inspectors level 2 and level 3
• Quality support (e.g. audits)

Ultrasonic
Ultrasonic phased array
Eddy current
Penetrant
Magnetic particle
Coating thickness measurements
Conductivity measurements
Fokker bondtester
Additional capabilities

- CIVA modelling software
- 2D and 3D C-scan facilities (conventional and phased array)
- Acoustic emission
- Comparative Vacuum Monitoring
- Avizo analysis and modelling software for CT-scan data
